Here in California we have a (1) person that because he does not beleive in a GOD of any kind wants to have the word god removed from our pledge of alegence. He, as one person has been able to take this clear to the supreme court. He must and will be voted down because we the people beleive in not only free speach but that majority rules. The broadcasting companies, most but not all, are giving a one side of what is happening in Iraq. They are stealing our rights to know the truth. We are now being cencered by them. We do nNOT need to have more of this. That is what Hitler did and we defeated him. Do not let HR 4026 become law. Thank Yoy. Ivo Vollmer.
